Funding Projection through June 1963 [ ]

25X1A

1. You will recall that [ ] reviewed with you the Projection Report for CIA/NRO Program through 30 June 1962 in preparation for discussion which you were to have with Dr. McMillan on the status of NRO funds. As a result of this review the reference was prepared to identify certain items on which we were awaiting NRO approval.

2. According to verbal reports, Dr. McMillan has approved the nine-plane IDEALIST Program and we are proceeding at this time to identify a schedule for engine procurement and aircraft modification. We have also received written authorization for an additional [ ] for FY 1963 construction [ ] in lieu of the [ ] we have requested. The [ ] should enable us to meet expenses on the additional construction through 30 June and we will include the remainder of the [ ] we had requested in our FY 1964 operational budget.

3. [ ] has hinted that by 1 May there should be some ray of hope for us to receive financial assistance in the [ ] deficit we are now projecting in the OXCART Program, [ ]

[ ] Unfortunately, the projected deficit at this time is a very real thing supported by cries of anguish by our contractors. In order that we may offer some guidance or relief to our contractors, it is requested that you pursue the status of our funds with Dr. McMillan and seek NRO funding for the deficits we now experience.
